

# I Never

[Rilo Kiley](#)

I'm only a woman  
Of flesh and bone  
And I wept much  
We all do  
I thought I might die alone  
But I had never(x11) met you  
So baby be good to me  
I've got nothing to give you, you see  
except everything, everything, everything, everything  
All the good  
And the bad  
Cause I've been bad  
I've lied, cheated, stolen, and been ungrateful for what I had  
And I'm afraid habits rule my waking life  
I'm scared  
And I'm running in my sleep  
For you  
But all of the oceans and rivers and showers will wash it all away  
And make me clean  
For you  
Cause I had never(x15) met you So let's take a loan out  
Put it down on a house  
In a place we've never lived  
in a place that exists  
In the pages of scripts and  
the songs that they sing  
And all the beautiful things  
That make you weep but  
Don't have to make you weak Cause I never(x27) loved somebody  
The way I loved you.
