You can't even believe it but that's okay

On the microphone I fascinate

When I let my third eye exaggerateFreaky visions, I tell you what I see

Cold concrete scattered with dry leaves

You naked, lying on the pavement

People are standing round with laany shoes You can hardly move, you look sexy

All of a sudden, the streets are empty

You stand up, open your eye-lids

You in a trench coat, it's french, you look stylishYou walk in the silence, not sure what the time is

It's totally twilight, the sky is violet

An abandoned house, look ahead you see

Some open the door, yes, it's meWith the meanest penis you ever seen

You on your period with no tampon

You kneel down and get with the vibe

Your period blood has crystallizedYou offer me the red crystal, it's ill

Grab hold of the mic tight, tonight's the night

The vibe is live, pump up the base

I got tentacles coming out my faceI rise into the air, cut myself open

Warm blood pours down all round

I speak from the deep cut in between my thighs

You covered in blood rubbing your boobs, feeling niceRubbing your boobs, feeling nice

Rubbing your boobs, feeling nice

Rubbing your boobs, feeling nice

You covered in blood rubbing your boobs, feeling niceBeat boy, beat boy

Pump it, uh, yo, pump it, uh, uh

Lick it, dip it, twist it, turn it, pump it, pump itYou open the door, step into the place

Look around, strange painting on the walls

A chick on the floor on all fours, totally nude

In high heels, the vibes illShe's hand-cuffed, ankle cuffed, steel collar

With a long lease attached to the ceiling

The scene's appealing, revealing weird feelings

Make you forget about what you believing Another chick chilling against the wall

Flashing her boobs, legs spread with a nice vagina

And a long stick, there's a nice big

Painting above her head, expensive You check another chick on all fours

Chilling next to another chick lying on the floor

Legs spread in the middle of the corridor

Close shave, don't touch what you can't affordThe next-room's a bed room, you become two

What I mean is, you plus another you

You get down with yourself while I watch

Body buzzing like a bed of a billion beesYou kneel down in front of the other you

Time to learn something new

The one kneeling is a slave, kneel for the master

Feel the warm hand on the back of your headYou got a tattoo on the back of your neck

An infinity sign that represents your past

Your master touches you on your tattoo

And removes your tattoo, now you brand newI'm proud of you, dear

There's nothing you not allowed to do here

Listen to me, the infinity tattoo is a key

Let go to my rhyme and open your mind

Let go to my rhyme and open your mind

Open your mind, open your mindBeat boy, beat boy

Pump it, uh, yo, pump it, uh, uh

Lick it, dip it, twist it, turn it, pump it, pump itLift up your dress, open up your legs

Your vaginas sewn up, untie the thread

My sublime rhyme inside your head

Your mind is rushing, vagina gushingAnother chick in the corner taking a piss

It looks nice, the whole vibe is totally kinky

Look around, the new room is fancy

Remove your fur coat, remove your pantiesI'm rocking a suit and a black face mask

I ejaculate in champagne glass

Your precious flesh is so mysterious

Pierce your nipples with two long needlesLike a crucifix, take you to another level

While I get my freak on, the vibe is mental

Transcendental, we somewhere else now

Still rocking a mask but I've taken off my suitYou rocking a mask too, shaking your nice boobs

I tell you I like you, you feel my piel

We start french kissing with flippin' long tongues

We somewhere else now, you dressed conservative transform into a big black god

Feel the realness, my dick's lank hard

You can't believe it, a dick in your palm

As big as your arm, we somewhere else now A hospital uh, get ready for the operation

Lot of guys chilling behind you

Blasts from the past

All rocking a mask, penises outDrop your panties for the surgeon

I'm not a virgin, it's not a problem

Look in the mirror, you can see it's you

You got two nice boobs and a penis tooLook in the mirror, look in the mirror

Look in the mirror, you can see it's you

Look in the mirror, you can see it's you

You got two nice boobs and a penis tooLook in the mirror, look in the mirror

Look in the mirror, you can see it's you

Look in the mirror, you can see it's you

You got two nice boobs and a penis tooBeat boy, beat boy

Yo pump it, uh, lick it, dip it, twist it, turn it

Pump it, uh, yo, pump it, uh, uh

Lick it, dip it, twist it, turn it, pump it, pump itThe men in the masks gather 'round the patient

Waiting in anticipation
The old surgeon says, "Can you see this?

A beautiful woman with a brand new penis" You klap the surgeon, flip him right 'round

Bend him over, lift his white gown

Gryp the surgeon's milky butt-cheeks

Rape the surgeon, break the surgeonAbsorb you penis into your tummy

You a woman again, complete with a vagina

I'm flipping my rhyme uh, tripping your mind out

Ripping and vipping your pip, flip it inside-outNow you the teacher, you the guide

The real you won't see you denied

You got crazy sex appeal, all tied up

Kneeling on the pavement, you can't say shitYour mouth is gagged, you surrounded by

A thousand guys totally under your spell

They all totally scared of the power you hold

You can changed the rules of the game

And devour their soulsNow's the time, girl

Let's head back into the outside world

The world of others, it's time to go back

The doors are stuck shut

But the walls are beginning to crackUh, now the walls are bleeding

It's all deceiving, you soaking wet

With no regrets, feel your body sweat blood

Peel off your old skin, time to get love You arrive at the cemetery in time for the ceremony

I give you a hot kiss, grab hold of your arse cheeks

How'd you like to get laid on this

Tomb stone in the middle of the rain forestMy gaze puts you in a dase, I'm loving your long tongue

Look at your beautiful face, covered in hot come

Spread my wings block out the sun

Lie on my back, scope out your bumMy penis stays hard, you breathing heavily

I penetrate you, the feeling's heavenly

Now bounce, girl, you know it's hot

Bounce, bounce, girl, like, oh my godTotally freaky deaky phunky

Wa'e make you leave your body

Transport you to another dimension

You alone in the desert, totally nudeThe silence is violent

You floating above the groundInvisible energies penetrate

Every hole in your body while you levitate

You start coming apart, shape-shifting

Wild, out of controlDestructo, ghan odn ar
