Line

Joan Onil

I've gotta tell you tell you about it
Ive been gone for so long
I just wanna sing my song
I know you been hearing
Hearing a lot of things about me

Oh I know I know
I've heard I have heard it all to clear
This is what I am going to do

[Chorus]
I am going to hold hold on to my pride
I'm gonna stick I'm gonna stick to my guns
I'm gonna put my finger on the trigger
I'm gonna pull it and we gon see what the deal
I'm for real, I just wanna put it, put it on the line
I've gotta put it on the line
And we haven't got much time
I've gotta put it on the line
Know what I'm talking bout this evening
I've gotta put it on the line

I've got a bullet in the chamber
And I'm not afraid of the danger
We've gotta go down to the wire
I'll go through the fire with you
Kill and die with you
I know everybody watching me
The pressure is on
From every angle
Political to personal
Will I hang or be left hanging? Will I fall off?
Or will it be banging
I say its up to the man upstairs

I am going to hold, hold on to my pride
I'm gonna stick, I'm gonna stick to my guns
I'm gonna put my finger on the trigger
I'm gonna pull it and we goin' see what the deal
I'm for real, I just wanna put it, put it on the line

I've gotta put it on the line
And we haven't got much time
I've gotta put it on the line
Know what I'm talking bout this evening
I've gotta put it on the line
