

Buried in the Ground

The Veer Union

Falling through the fire again.
Feeling far too close to the end.
Loathe around I need oxygen.
Need to find my way home again. Someone save me.
cause I'm fading.
I'm wasting away
I won't last long
I can't hold on.
I need to turn it around.
Before I'm buried in the ground.
I'm not that strong
When hope is gone.
I need to turn it around.
Before I'm buried in the ground.
Before I'm buried in the ground. Scratching at the surface again.
Wonder why they won't let me in.
Serpents crawling under my skin.
Slowly sinking deeper within. Someone save me.
cause I'm fading.
I'm wasting away
I won't last long
I can't hold on.
I need to turn it around.
Before I'm buried in the ground.
I'm not that strong
When hope is gone.
I need to turn it around.
Before I'm buried in the ground.
Before I'm buried in the ground.
Before I'm buried in the ground.
