

# You and I

Will Young

Cut to the chase your pretty face  
Search outer space leavin' no trace  
Making love in the Heavens above  
Flyin' so high you and I  
You and I, you and I Can't get my head around you  
Can't bear to be without you  
Can't stop from thinkin' 'bout you  
You turn my life around  
Can't get my head around you  
Can't bear to be without you  
Can't stop from thinkin' 'bout you  
You turn my life around Time standing still, inch time to kill  
Cheatin' the wheel there are moments to steal  
So another day gets brushed away  
Preoccupied you and I  
You and I, you and I Can't get my head around you  
Can't bear to be without you  
Can't stop from thinkin' 'bout you  
You turn my life around  
Can't get my head around you  
Can't bear to be without you  
Can't stop from thinkin' 'bout you  
You turn my life around Making love in the Heavens above  
Flyin' so high, you and I Can't get my head around you  
Can't bear to be without you  
I can't stop from thinkin' 'bout you  
You turn my life around  
I can't get my head around you  
I can't bear to be without you  
I can't stop from thinkin' 'bout you  
You turn my life around I can't get my head around you  
I can't bear to be without you  
I can't stop from thinkin' 'bout you  
You turn my life around I can't get my head around you  
I can't bear to be without you  
I can't stop from thinkin' 'bout you  
I can't get my head around you  
I can't bear to be without you  
I can't stop from thinkin' 'bout you I can't get my head around you

I can't bear to be without you  
I can't stop from thinkin' 'bout you
