

Aries

Gary Fane

Right is your life as you show to me
You are meant to live your life
Fast like the wind and young as spring
You can jump to farther fly
Trying to love and you can give
And your honesty is blind
Makes up your dreams with reality
There's a whole world you can find

2x Aries is your light
It shines right through
Keep it in your heart
Don't get blue
No, never let it fade
Please hold on, please hold on

Young as heart you are meant to be
A simple child of life
Suddenly you will fall in love
And you know you've got that right
Tomorrow and yesterday, it don't count
Today is all around
Life is a circle in which you turn
Like the silence and the sound

3x Aries is your light
It shines right through
Keep it in your heart
Don't get blue
No, never let it fade
Please hold on, please hold on
