

# Come On And See Me

**Tammi Terrell**

If you need a lover  
Truer than any other  
Come on & see me  
If you need a heart  
That will never tear apart  
Come on & see me  
'Cause I've got a true love just for you, love  
& it can be yours eternally  
If you want it, you better come & get it  
I say if you want it, better come & get it If you need a lover  
That'll stick right by you, brother  
Come on & see me  
I'll stand by your side  
I'll dry your weepin' eyes  
Come on & see me  
'Cause I've got joy, love, for some boy, love  
& it can be yours eternally  
If you want it, you better come & get it  
I say if you want it, better come & get it Ba-a-by (come on & see me now)  
Su-yu-gar (come on & see me now)  
Ho-yo-ney (come on & see me now)  
'Cause I've got joy, love, for some boy, love  
& it can be yours eternally (repeat & fade):  
If you want it, better come & get it  
Ba-a-by, baby (come on & see me now)  
If you want it, better come & get it  
Su-yu-gar, sugar (come on & see me now)  
If you want it, better come & get it  
Ho-yo-ney, honey (come on & see me now)
