Stop Running

Caliban

Don't be afraid of me
I'll be there for you night and day
I'll show you things that make you laugh
I'll show you things that make you smileLet me be your friend
Give me the chance to concludeLet me erase this time
'Cause when I look around, I see just pain
This awful time that makes you sick
This awful time that makes you cryLet me be your friend
Give me the chance to conclude
What drives you insaneDon't run away from your inner fears
I'll be there for you, forever whatever you'll say
I'll be there for you, forever in every waySo what's your answer now?
Are we friends or should I leave you alone?
I'll show you things that make you laugh
I'll show you things that make you smileLet me be your friend
Give me the chance to conclude
What drives you insane
