

They Said (feat. Cherry Da Vixen)

Young Soulja The Realest

[Intro] yo its young soulja/

And ...if you ever had somebody that told you you couldn't do something/

This your chance to shine/

Because all that negativity that they put up on you/

Was just motivation/

[Hook]

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said)haha look at me now

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said)haha look at me now

[Verse one]

Through my life they said ill never make it/

Ill never have money and jewels that id be faking it/

They said ill never kick it with the stars/

That ill never have a mansion never ever drive fancy cars/

They said that it will never happen/

That I should just quit and that I will never make it rapping/

They kept on talking like you will never make it out/

Better find a new career and stumble on a different route/

You got to understand that the stage is where I'm suppose to be/

That's why I got it tatted so it always stays close to me/

My heart pumps beats and my mouth spits lyrics/

If you shut the fuck up maybe you could just hear this/

I been in the industry over ten years/

And I conquered all my enemies/

Worked harder then my peers/

People wonder why cause I went the extra mile/

When they blabbing at the mouth I just smile/

[Hook]

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said) ha-ha look at me now

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said) ha-ha look at me now

[Verse two]

They said ...you'll never make it on the radio/

The industry's shady but don't let them play you though/

Keep your eyes open for junkie promoters/

And backstabbing suckers that get greasy like motors/

You'll see my face on the cover of a magazine/

You'll never see me fall even though I might be staggering/

Bet they'll say hell never ever go platinum/

I Aim for the stars so I bet you I out lap them/

They said ill never make a mill but they see my counting/

With so much money pouring out like a fountain/

I don't know they don't want me in the lime light /

Even though my swags on point and I rhyme tight/

The music holds me down like drugs on a triple beam/

Watch the envy turn to hate when I'm on the TV screen/

They don't want to see me succeed they want to see me fail/

And When I get my first Grammy well/

[Hook]

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said) ha-ha look at me now

They said ill never be rich/

They said ill never make it/

That's what they said / (they said)

They said/ (they said)

They said/ (they said) ha-ha look at me now

[Verse three]

Let me tell you what was said form the get/

Ya mommy's long gone and ya daddy's in prison/

That's the reason/

You'll never make it out these streets girl/

Well I refuse to lose/

I'm breaking through/

Anything standing in my way/

Seen many faces/

Heard all the lies/

They said you'll never win the prize/

Never make it out alive/
That's what they said/
Fuck what they said/
Here's what I say no time for play/
Rise early in the morning for the bread each day/
So full of doubts just look at me now/
Toes in the sand right in front of my beach house/

[Hook]

They said ill never be rich/
They said ill never make it/
That's what they said / (they said)
They said/ (they said)
They said/ (they said)haha look at me now
They said ill never be rich/
They said ill never make it/
That's what they said / (they said)
They said/ (they said)
They said/ (they said)haha look at me now
They said ill never be rich/
They said ill never make it/
That's what they said / (they said)
They said/ (they said)
They said/ (they said)haha look at me now
They said ill never be rich/
They said ill never make it/
That's what they said / (they said)
They said/ (they said)
They said/ (they said)haha look at me now
(echos out)
