Where's The Party

Vitamin C

Where's the party?
Where's the party?
Show me the way, show me the way
It's like a holiday that happens every day
I get to celebrate, no matter what you say
When I get real bored, I want something more
I never lose my head 'cause I know the score
Show me the way, show me the way
C'mon, show me the way
Where's the party?
All I wanna do is have some fun
Where's the party?
Party all night 'til I can't go on
Where's the party?
All I wanna do is have some fun
Where's the party?
Show me the way, show me the way
One thing I know is when I feel low
I never have to worry, got a place to party
No one's getting mean, it's so obscene
No matter what goes down, I just get what I need
Show me the way, show me the way
C'mon, show me the way

Where's the party?
All I wanna do is have some fun
Where's the party?
Party all night 'til I can't go on
Where's the party?
All I wanna do is have some fun
Where's the party?
Where's the party?
Show me the way, if you show me the way
C'mon, show me the way
Where's the party?
All I wanna do is have some fun
Where's the party?
Party all night 'til I can't go on
Where's the party?

All I wanna do is have some fun
Where's the party?
Where's the party?
Where's the party?
Where's the party?
Where's the party?
Where's the party?
Show me the way, show me the way
