

# Clouds Suite

## David Gates

See the clouds adrift so far below  
Everchanging as they come and go  
Makes me wonder why I'm up so high  
When really I am down so low  
Of all the wonders I was one allowed  
I think that I would always choose a cloud  
Always brings my feelings right out loud  
Whether I'm ashamed or proud  
On this airplane comin' home to you  
Sometimes I think I've flown my whole  
life through  
My whole life... through  
As I wing my way to you  
See the clouds they're giving life below  
In colors that the canvas cannot show  
Keeping secrets no one else could know  
For I'm the one who told them so  
Now and then I get up close to you  
I'd like to stay but I'm just passing through  
So I'll have to say goodbye...  
Until next time I fly. (interlude)  
Make my bed-light the light  
Comin' in on the midnight flight  
Touch the ground and soon you will be  
Safe inside reality  
Change your mind-change your name  
Still the music it sounds the same  
Rainfall don't bother me at all  
You see the world reflected on the highway  
Come on rainbow-I can't let you go  
Before I reach the end of you someway  
So the next time raindrops fall  
If it makes you climb the walls just think  
of green.
