Dream in Shadows

Alastria

Resting mind in unknown
With dreams on the horizon
Seeking out a new way to view this path

The everlasting road, things we cannot comprehend
Obscure faces moving all around
Serenity, my faithful friend

To save your soul
To change your world
When strength comes from below
And know your mind
To conquer
Waking demise
We dream in shadows
We dream in shadows

Find Illusion in your mind
A message deep within
Understand your way of life

Fear, wake, reality
Lose the vision oh so clear
When shadows haunt your dreams at night
And you try to fight the fear

To save your soul
To change your world
When strength comes from below
And know your mind
To conquer
Waking demise
We dream in shadows
We dream in shadows
We dream in shadows

Bursts of light within your mind
Senseless and obscene
Forms chaotic and divine

Lurk in mystery

Resting mind in unknown
With dreams on the horizon
Seeking out a new way to view this path

Fear, wake, reality
Lose the vision oh so clear
When shadows haunt your dreams at night
And you try to fight the fear
