## Tink

Talk to me mentally, wise from a symphony  
She cant hear and I cant stand without this argueing  
Tried to connect with me, I found the epiphany  
Like a mystery, you dont seem to feel  
You were back then, now youre just giving up  
Now Im swerving, thoughts start turning  
I gave you all the signs and you still ignore it  
So what the fuck am I to do? She gave me too many demons  
No signal on this road were going downShut up, by now you have it  
Can't fix one thing in silence  
You say you care but you don't care like how I care  
And that's fucked up  
And what hurts the most is you don't want my love  
My love, no, can't explain itSaying what you wanna hear, they will  
Youll never understand how it feels, no  
Trying to get through to a person who can't  
Who can't, who can't,  
Feel what you feelSaying what you wanna hear, they will  
Youll never understand how it feels, no  
Trying to get through to a person who can't  
Who can't, who can't,  
Feel what you feelI wanna feel deep with your actions  
I wanna feel more than attraction  
I wanna get deeper and deeper  
If its not what I think then I think you should be more clear  
Tell me you was down for the ride  
I guess now the rules dont apply for a nigga  
And if we cant draw close, baby, youll never get that bitch up  
So talk to me mentally, I wanna feel that chemistry  
That we both had, we both had  
My hearts in between my mind  
I love you but love is blind  
Its clear to see we're going downShut up, by now you have it  
Can't fix one thing in silence  
You say you care but you don't care like how I care  
And that's fucked up  
And what hurts the most is you don't want my love  
My love, no, can't explain itSaying what you wanna hear, they will  
Youll never understand how it feels, no

Trying to get through to a person who can't  
Who can't, who can't,  
Feel what you feel Saying what you wanna hear, they will  
You'll never understand how it feels, no  
Trying to get through to person who can't  
Who can't, who can't,  
Feel what you feel
