

Watching You

[Ayo](#)

Watching you while you sleep
My hand on your breast feels your heart beat
Whispering in your ear
Explaining the way you make me feel You made my dreams come true
Cause all Ive missed I found in you
Im so addicted to your love
Boy you will always have the best place in my heart If there was only one place it would be by your side
Cause just with you on my side I can make it right
If there was only one place would it be by my side?
Would you share all your dreams with me for the rest of our life? I hope that you will always stay
Cause without you life wouldn't be the same
With you I share my world, I'm so glad to be your girl
Boy you to me means everything What we have is so hard to find
So lets hold on to it till the end of time
I know that Ive been blessed
Cause boy with you God gave me the best?
And I will always be grateful for what we have If there was only one place it would be by your side
Cause just with you on my side I can make it right
If there was only one place would it be by my side?
Would you share all your dreams with me for the rest of our life?
