

# Slash N' Burn

## Manic Street Preachers

You need your stars, even killers have prestige  
Access to a living you will not see  
24 boredom, I'm convicted instantly  
Gorgeous poverty of created needs  
Slash n' burn  
Kill to live, kill for kicks  
3rd world to the 1st  
Kill to live  
Worms in the garden more real than a McDonald's  
Drain your blood and let the Exxon spill in  
Look around here and you see nothing is very real  
Chained to economy now famine has been  
Slash n' burn  
Kill to live, kill for kicks  
3rd world to the 1st  
Kill to live  
That's all you need  
That's all you need  
That's all you need  
  
That's all you need  
Madonna drinks Coke and so you can too  
Tastes real good not like a sweet poison should  
Too much comfort to get decadent  
Politics here's death and God is safer sex  
Slash n' burn  
Kill to live, kill for kicks  
3rd world to the 1st  
Kill to live, kill for kicks  
Slash n' burn  
Kill to live, kill for kicks  
3rd world to the 1st  
Kill to live  
That's all you need  
That's all you need  
That's all you need  
That's all you need
