

I Just Wanna Be Your Fantasy

Cheryl Lynn

I just wanna be your fantasy
I just want you to be right next to me
I just wanna be your fantasy
I just want you to be right next to me

Picture me somewhere with you
Under the noonday sun
And just having fun
A rendezvous on an early morning run
Expressing the joys of our love
With everything that's done
Holdin' squeezin' pleasin' feelin' you
I'm your dream come true

I just wanna be your fantasy
I just want you to be right next to me
I just wanna be your fantasy
I just want you to be right next to me

Just dream on
And I will meet you where
True love is rare
So if living fantasies are what you seek
Come into my real world
And I'll be your freak
You see a fantasy becomes reality
When the right girl is loving you

Cause I just wanna be your fantasy
I just want you to be right next to me
I just wanna be your fantasy
I just want you to be right next to me

Oh be my fantasy
Right here next to me
Be my fantasy (yeah)
Right here next to me

Dream on dream on
Dream when I'm near

Dream on dream on
Dream when I'm near

I just wanna be your fantasy
I just want you to be right next to me
I just wanna be your fantasy
I just want you to be right next to me
(adlib to fade)
