I Need A Doctor

Underworld

In the morning
Radio jingles
Drive me mental
Turning my blood into water, yeah
Hear the shallow
Conversation
From the station
Sugar cube a generation, yeah
But would you take me home?
Would you know what to do when we got there?
May I use your phone?
I need my mother

So, educate me
Radio ego, I will follow
But what will I find tomorrow, well?
But would you take me home
To the little white hospital in my head
May I use your phone
I need my mother?
But would you take me home
Would you know what to do when we got there?
May I use your phone
I need a doctor
