

Better Do Better

Hard-fi

You're back, sitting on my doorstep
Ah yeah, like nothing happened
Telling me that you're free and oh
Can you see me again? Yeah right, you've been kicked out
Do you think I'm that stupid?
You say you're free but didn't he just oh oh oh
Get tired of you kidI could not eat for days, I cried so much my face
Has never been the same
And now, now, you're back here with your lies
I hope you realizeYou think I'm gonna take you back
You'd better do better than that
I'll tell ya how it's gonna be
Don't you never ever come near meLet me tell you how I've been
I've been hiding from my friends
Hiding from the world
Hiding from myselfYou think you'll come round here
Start singing in my ear
Girl, you damaged me, I don't forgive so easily
You better do better than thatYour face makes me want to be sick
Ah yeah, it's a physical reaction
You'd better leave 'cause you see I can't
Won't be blamed for my actionsOh oh, how I ever loved you
So dumb, how did I ever trust you?
But you and he laughed at me, oh, yeah, yeah
When you're laid togetherI could not eat for days, I cried so much my face
Has never been the same
And now, now you're back here with your lies
I hope you realizeYou think I'm gonna take you back
You'd better do better than that
I'll tell ya how it's gonna be
Don't you never ever come near meLet me tell you how I've been
I've been hiding from my friends
Hiding from the world
Hiding from myselfYou think you'll come round here
Start singing in my ear
Girl, you damaged me, I don't forgive so easily
You better do better than thatI gave you everything I had girl
But you had to try and take some more, oh
You went behind my back girl

Cheated on me, I was the last to know
Did everything we have girl, meant nothing to ya
Well, I was such a fool
Now you come crawling back girl
Oh, let me tell ya I am through with you
I'm back up off the floor and I won't get hurt no more
I've been waiting for this day when
You'll be back here with your lies
I hope you realize
You think I'm gonna take you back
You'd better do better than that
I'll tell ya how it's gonna be
Don't you never ever come near me
Let me tell you how I've been
I've been hiding from my friends
Hiding from the world
Hiding from myself
You think you'll come round here
Start singing in my ear
Girl, you damaged me, I don't forgive so easily
You better do better than that
Say something, say something
You'd better do better than that
