

Paddle Forward

Yo La Tengo

It's on my list
We've come undone
Grip tight point, over the way from the shore
We feel safe
Inside
But not away the tide
Hello tide
The water's warm After that
We've come undone
Slipped again, lost at sea
Cracking synagogue
But we could stand
For now
This warm is coming as
Hello tide Once it's far too fast
Never seems to last
Hang in tight when you form this Shoot with force, we've come undone
Riptide pourin', pourin' it in from the shore
