Generation Hexed

Carcass

(Music: Steer)
(Lyrics: Walker)
Lost forever
A whole generation of pathetic lost souls
With no meaning no depth
They're already dead, before it gets old
Anonymous, blank
No individuality, uniformed
A wholesale
Blanket identity, from the day that they're born
- Another generation to mourn
What choice for a new generation?
Another generation under sedation
Flocking like sheep
The instinctual herd, as fashion dictates
Primitively seduced
Commonly reduced, resigned to their fate
Another useless
Faceless degeneration
Like the one which precedes
Acknowledging
A bleak existence, to be spent on it's knees
- The pattern it seeds
What choice for a new generation?
Another generation under sedation
Generation hexed
Just another useless generation
..Hexed
Trapped together
Another wasted generation is sold
With no meaning, no depth
They're there to be bled
Never breaking the mould
Anonymous, blank
No individuality, misinformed
A wholesale
Blinkered non-entity, on it's knees born
- Another generation to scorn
What choice for a new generation?

Just another generation under sedation
Self suppressed
Generation vexed
Ha, self oppressed
Just another generation hexed
(lead)
What choice for a new generation?
A generation vexed
Still no choice for a new generation
Just another generation under sedation
Generation hexed
Just another useless generation
Generation hexed
Just another wasted generation
..hexed
