

# Up On The Ridge

Dierks Bentley

(Come with me tonight) Let's blow out these city lights  
Let's just leave it all behind  
Get up where the air is still  
You can hear the whippoorwill  
Start a fire pass the shine  
Won't be home 'til mornin' time  
Shout your name out in the wind  
Confess my love for you again  
Give you all I got to give  
That's how we live up on the ridge Won't you come with me tonight  
Where the moonlight drifts into your eyes  
Yeah, I just want one little kiss  
When we get high up on the ridge Hey now honey child we'd be runnin' free and wild  
No one care what you do  
Ain't no law to answer to  
Dance around in the dirt  
Listen to them crickets chirp  
Hear old Jake start to howl  
When he hears that ol' hoot owl  
Give you all I got to give  
That's how we live up on the ridge Won't you come with me tonight  
Where the moonlight drifts into your eyes  
Yeah, I just want one little kiss  
When we get high up on the ridge Come on girl it's almost dawn  
Let's get it 'fore the magic gone  
Tall tall grass all around  
Come on lay that blanket down  
Wild flowers just like you  
Lay on me like mornin' dew  
Now take my hand walk with me  
Sun come up through them trees  
Give you all I got to give  
That's how we live up on the ridge Won't you come with me tonight  
Where the moonlight drifts into your eyes  
Yeah, I just want one little kiss  
When we get high up on the ridge I just want one little kiss  
When we get high up on the ridge (Three, four)
