

You Say Yes, I Say Yes

Veto

Getting in there
Is the easiest part
Just keep your head downIt's finding meaning
Once you're in there
That's hardrefrain:
What's the point of speech
When all I do with it
It just repeating myselfrefrain2:
What's the point of a soul
When all I'm being is
A faulty copy of myselfBut if you get off
Then I get offWhat's the meaning of
Covering up yourself when
You are who you were bornWhat's the meaning of
Doing things that you
Obviously think are wrongIf you take one more step
I'll be behind you
To put my foot
Where yours were firstIf you say one more clever thing
I'll just repeat it
And act like I said it first
