

If U R Who U Say U R

Electric Six

Normal is the new weird
Lights turned down low
The party's rendez-vous
And even light can't escape here, least I know
Somehow the message never got to you I was a naughty little boy watching you
Flip your hair like a movie star
And I would live underneath your shoe
If U R Who U Say U R Inhibitions melt like an ice-cream cone
All the conversations that you've had alone
If you want sympathy then you're out of luck
Because the bedroom is the worst place people can fuck
I was a naughty little boy watching you
Flip your hair like a movie star
And I would live underneath your shoe
If U R Who U Say U R And you are.
And you are.
And you are. A poor choice of words it can break any body
As cheese gives us curds so it goes with your body
I lower the lights down low
And order take-away to go!
Further away from the big reveal
My poor heart gets tenderised like veal
And you have no idea what you're doing to me
You're just being everything that you were meant to be
Leave every consequence behind
Run the lights in your fancy car
Erasing any doubt in my mind
That U R Who U Say U R And you are.
And you are.
And you are.
Oh!
Oh!
Oh!
