

Please Don't Stop

Candy Dulfer

"Please Don't Stop" song overview: Candy Dulfer began her career in the 90's. Her appearances with Prince led to session work with Eurythmics guitarist/producer Dave Stewart, who gave Dulfer a credit on "Lily Was Here," which reached number six in the U.K. and number one on the Dutch radio charts in 1990. Now she's back with a great song called "Please Don't Stop". She's doing a great job and makes such beautiful songs, I hope she doesn't stop.

Please Don't Stop lyrics

Move a little to the middle baby

Please don't stop

Shake it down to the lower ground,

Let it drop

Bring it back where I like it baby

You know how I like it baby

You know how I like it baby X 2

You know how I like it baby

You know how I like it baby

Just like that baby, just like that X 2

Kisses in the morning ... baby please don't stop

Your ... body is incredible high

Wanna taste you in my mouth let me kiss you honey

You know how I like it baby

You know how I like it baby X 2

You know how I like it baby

You know how I like it baby

Just like that baby, just like that X2

Now what am I gonna do, cause I can't take my eyes off you

Take my mind off you, keep my hands off you

You're breaking me, making me loose my cool X 2

You know how I like it baby

You know how I like it baby

Just like that baby, just like that X2

Yeah, uh, right there, come on baby

Uh, come on, oh, oh, oh, huuu

Yeah, can you feel it?

Uh, that's how I like it baby

Here we go now

You know how I like it baby

You know how I like it baby

Just like that baby, just like that X2

Please don't stop,

Keep it going and you don't stop
You know how I like it baby
Please don't stop,
Let it drop
Give me more, give me more
Now what am I gonna do, cause I can't take my eyes off you
Take my mind off you, keep my hands off you
You're breaking me, making me loose my cool.
