

# Restless Sea (feat. Opia)

Louis Futon

Watching the stars from the bedside  
I think you're in love with the night sky  
But when the weight, got heavy to hold I pushed you away when I should've pulled  
But I couldn't stay when you kept me afloat Now we're both undressing, second-guessing  
I wished you'd hold me under 'Cause I'm in love with the restless sea  
(Restless sea)  
Saw you alone by the firelight (uh, uh)  
Calling my name to the long night (uh, uh)  
But sometimes I just wanna be alone  
That's what I say to keep you afloat Now we're both undressing, second-guessing  
I wished you'd hold me under 'Cause I'm in love with the restless sea  
(Restless sea)  
'Cause I'm in love with the restless sea  
(Restless sea)  
But when the weight, got heavy to hold  
I pushed you away when I should've pulled  
I couldn't stay when you kept me afloat, so we'll never know  
I'm in love with the restless sea 'Cause I'm in love with the restless sea  
(Restless sea)  
'Cause I'm in love with the restless
