

# By the Riverside

## Econoline Crush

walking into a new frontier  
taking three four steps and i'm out of here  
    don't go so fast  
    got to get it right  
    bring it to me slowly  
    i got to make it last  
i take a ride on the winds of change  
i take my chances and i hope it pays  
    push it to the limit  
    the limits they change  
    sitting by the riverside  
watch it all go by  
then they change  
ain't gonna lose if i play the game  
    i'll tell it to you slowly  
    make the rules  
    i got to make things right  
    make sure you know  
    you're going to understand  
i take a ride on the winds of change  
i take my chances and i hope it pays  
    push it to the limit  
    the limits they change  
watch it all go by  
sitting by the riverside  
karma comes from within and it isn't  
    i'll tell you something  
there is something that you're missing  
    the trash you talk  
    i got a life and i'm living it  
    kicking at the walls  
    till the light punches through  
    and the lies you're spinning  
    got to get a religion  
    give the devil his due  
    standing at the crossroads  
    your hat in your hand  
    jump in the river man
