

What Did I Do To You? (Live In Manchester)

[Lisa Stansfield](#)

It's the way you walk, and the way you talk
Now you're nothing near the way that you were
And there's something strange when you hold my hand
Tell my why you changed the way that we were
Tell my why you changed the way that we were Could we be the same?
Could we try again? What did I do to you, baby?
What did I do to you, baby?
What did I do to you?
What did I do to you?
What did I do to you, baby? You never touch my skin, in the way you did
And you've even changed the way you kiss me
When lovers part there's a change of heart
But my heart can't change the way that we were
Ooo no my heart can't change the way that we were Could we be the same?
Could we try again? What did I do to you, baby?
What did I do to you, baby?
What did I do to you?
What did I do to you?
What did I do to you, baby? Togetherness is when I undress
Never when we talk, never tenderness
And I can't forget all the joy we had
But I know we'll be the way that we were
Yes, I know we'll be the way that we were We can be the same
We can try again What did I do to you, baby, baby?
What did I do to you, baby?
What did I do to you?
What did I do to you?
What did I do to you, baby? What did I do to you, baby?
(Baby help me back, help me back, help me back)
What did I do to you, baby?
What did I do to you?
What did I, do to you?
What did I do to you, baby?
