Come With Me

Donna Summer

Come with me, come with me, lose yourself, let love be
I will lead you there, keep you there
Give my share and take my share
Set you free if you will come with me
Come with me, come with me, I give love's guarantee
I will turn you on, right or wrong
Make you feel you belong
Turn the key if you will come with me
Come with me, come with me and leave out fantasies
We'll just take it slow as we go

Enjoy it all as we fall
Into love's stream if you will come with me
Come with me, come with me, I give love's guarantee
It will turn you on, right or wrong
Make you feel you belong
Turn the key if you will come with me
Baby, baby come
Baby, baby come, oh
