The New Way

Face to Face

You're alright, you're alive, you're the number one
They said that you're not ashamed of what you've done
Everyone makes mistakes
Make it up you'll be OK
That's what they tell youYou won't get the special treatment
I don't care what you do or say
Don't let them tell you what you're already thinking
It's a no win situationWell enough of the old way
It's not working and the rules have already changed
What we need is a new way
There's something else just a little bit better
It's on the wayYou're a drag, you're a bore, you're a rainy day
You take offense to almost everything they do or say
Everyone makes mistakes
Make it up you'll be OK
I tried to tell you
