

Your Kind

[Robyn Lynch](#)

Verse

You were the one who said that I'd amount to nothing

You were the one who put me down

You tried hard to swallow me in your shadow

Now I don't want you around

You're trying to steal this ride I'm on

To realize your own dreams

Squeezing out every drop of fortune

Clouding stars so I can't see

This is my farewell

This is my goodbye

Just go away

Cause I don't need your kind

This is my farewell

This is my goodbye

Just go away

Cause I don't need your kind

No I don't need your kind

You were never a friend before

Now you're clinging on to me

Opportunities are walking through my door

And you're sucking me dry like a leach
