

# Gonna Give You What You Need

Tyrese

Baby I just wanna, leave it in  
This is that leave it in music  
This is that leave it in music  
Girl it feels so much better in here  
Girl it feels so much better in here  
This is that leave it in music  
This is that leave it in music  
Girl it feels so much better in here  
Girl it feels so much better in here Here we are getting in the bed again  
Like a surgeon gonna lead now  
First set that off and get comfortable  
It's gonna be a long night, ohh that's for sure  
I only need shanty to please you So stay the night girl 'cause I need you  
Girl your body, girl your body got me going crazy And I'm gonna give you what you want  
'Cause satisfying you is satisfying me  
I'm gonna give you what you need  
'Cause laying here with you is ecstasy to me  
So hold on to the bed frame while I explore your body  
I'm gonna give you what you need  
'Cause laying here with you is ecstasy to me Girl tonight I wanna prove myself until there's nothing left, not  
here to play 'round  
I'll make you reach for what isn't there  
And pull at you hair, let's go all the way  
Brag to your friends about what I did to you So stay the night girl 'cause I need you  
Girl your body, girl your body got me going crazy And I'm gonna give you what you want  
'Cause satisfying you is satisfying me  
I'm gonna give you what you need  
'Cause laying here with you is ecstasy to me  
So hold on to the bed frame while I explore your body  
I'm gonna give you what you need  
'Cause laying here with you is ecstasy to me There ain't no limits, not tonight, tonight  
Girl it's whatever you decide, decide  
I'll go places I know, just what you wanna  
Girl your body, your body's got me going crazy, crazy I'm gonna give you what you want  
'Cause satisfying you is satisfying me  
I'm gonna give you what you need  
'Cause laying here with you is ecstasy to me  
So hold on to the bed frame while I explore your body  
I'm gonna give you what you need

'Cause laying here with you is ecstasy to me  
Don't you worry bout a thing baby  
So got it all from you sweet lady  
So out your body in my bed baby  
Said I got it from here, I got it from here
