

Gestation Of Smegma

Cattle Decapitation

Something awful happened to this child
An unholy wad of smegmated gestation
Jelly-like and squirming retarded heap
No arms
No legs
No head
Gestation of smegma
Slithering and writhing
an animate discharge
Mucous covered epithelial appendages
sliced off-to be used as lard
Trail of mucous, plasma and saliva
Human chunk of fat, skin and grey matter
Gestation gone wrong
weeping 2-week old waste of human flesh
Smegmated. Defect. Monster.
