## **Now's the Only Time I Know**

## **Fever Ray**

Dark brown hair and eyelash
Reappear in a flash
Now's the only time I knowEarly morning's greatest deed
What's forsaken, I do not need
There is water, there is snowSettling down door and room
Keep it tidy, keep it like a home
Now's the only time I knowCome here, sparrow watch my hand
Black and blue seeds
That is what my hand can
Now's the only time I knowDo my hair, paint eyelash
Reappear in a flash
There is more I'd like to knowNine-fifteen, then I'm done
Quiet front seat, then drive around
Through the water, through the snow
