Count It Higher

Sesame Street

You told me you could count
You said there's nothing to it
Well, if you're so good at counting
Let me hear you do it
1...2...3...
Mercy, is that the best you can do?
You've got to count it higher (count it higher)
I'd like to know who told ya you could stop at 3
You've got to count it higher (count it higher)
Baby, if you want to count with meLet me hear you count again now
1...2...3...higher!
4...higher!
5...Agh!
You've got to count if higher (count it higher)
5 just isn't good enough at all you see
You've got to count it higher (count it higher)
Baby, if you want to count with meNow, let's just try it one last time
1...2...3...4...5...6...7...8...9...10
You went and counted higher (counted higher)
You really went and counted all the way to 10
You went and counted higer (counted higher)
Now go back to 1 and start to count again
Are you ready?
1...2...3...4...5...6...7...8...9...10
You went and counted higher (counted higher)
You counted counted counted higher
You counted counted counted, huh!
You counted counted counted higher
You really are so good at counting!
