## Waco Jesus

Don't look back at your wasted life us don't even try your visceral acts won't go unchecked I'm fucking?  
fed up you can't eat my shit you give a whole new meaning to the word sickening I'm ready to snap get  
ready no holds barred ballistic out of my face or you will fucking meet your maker I'm godless possessed  
my target is you motherfucker Being politically correct is pure fucking bullshit, I've fucking said it once I'll  
fucking say it again. This world hates you. There is no other way you fuckers have to pay disease dumping  
ground won't water it down this world hates you kill if we let them before they fucking kill the human race  
what the fuck you weren't mother fucking queer their killing us all we'll make those fuckers live in fear a  
malignant growth a fucked up subculture their killing us all, if we let them were fucking failures do the words  
fuck off have any fucking meaning to you our backs to the wall there's no limit to what we'll fucking do you  
don't have a chance in a world that fucking hates your ass we're taking them out we'll fucking hit them hard  
and hit them fast being politically correct is pure fucking bullshit I'll fucking say it again this world  
hates you there is no other way you fuckers have to pay a disease dumping ground I won't water it down this
