

# Heavy Love, Pt. 2

## Tesla Rossa

My feet gripped tightly too the river bed  
Everything i want to save held high above my head  
The rope around your waist keeps me close to you  
Hold tight to me and i know weâ€™ll make it through

I can lift you straight over my head  
The love we carry  
Itâ€™s so heavy

The current carves a path by itâ€™s own device  
The way our hearts adapt is key to saving lives  
Our lungs fill up with change gasping for the truth  
Hold tight to me and i know weâ€™ll make it through
