Don't Be Like the World

Fire Engine Red

The punks of the world divide it when they dance
dont be like the world
Christ said greet brothers with a kiss of togetherness
dont be like the world
be kind show love, show joy from above (X2)
well the world doesnt sing the happy song
dont be like the world
just dwells on the negative all day long
dont be like the world
be kind show love, show joy from above (X2)
be kind show love, show joy from above (X2)
some people in the world are hypocrites
dont be like the world
guns in their hands and Jesus on their lips
dont be like the world
be kind show love, show joy from above (X2)
the world repays evil for evil
dont be like the world
be like Christ forgive people
dont be like the world
be kind show love, show joy from above (X2)
