Totally from the Heart

Buzzcocks

You want more, more than I can deliver
I love you more than you could ever know nowMade it plain from the start
Totally from the heartI'm to you like the mountain to Mohamed
But these roles could be juxtaposed, it's up to you nowMade it plain from the start
Totally from the heart(Totally from the heart)
Can't you hear a word I'm sayin'?
(Totally from the heart)
Every night I lie here prayin'(Totally from the heart)
I'm so scared, I'm too scared of being alone
So lonely, lonely, lonely, till the next timeLook at me, while I try to think about you
(Totally from the heart)
Look at me, while I try to think about you
(Totally from the heart)Made it plain from the start
Totally from the heart(Totally from the heart)
Can't you hear a word I'm sayin'?
(Totally from the heart)
Every night I lie here prayin'(Totally from the heart)
I'm so scared, I'm too scared of being alone
So lonely, lonely, lonely, lonely, lonely
Lonely, lonely, lonely till the next timeFrom now on is the time for becoming
One by one we can take control
I'm telling you nowMake it plain from the start
Totally from the heartYou want more, more than I can deliver
(Totally from the heart)
I love you more than you could know
(Totally from the heart)I'm to you like the mountain to Mohamed
(Totally from the heart)
But these roles could be juxtaposed
(Totally from the heart)Make it plain from the start
