

Your Love Is The Place Where I Come From

Teenage Fanclub

Your sadness don't lie
Your feelings can't hide
You always know why
But your reasons are sly
You never deny
What you feel insideI, I disappear when you're not here
In my lifeI can't slip away when I see your face
I lose my confusion
Your love is the place where I come from
When I'm on my own I'm lost in space
My freedoms a delusion
Your love is the place where I come fromMy sadness don't lie
My feelings can't hide
I Just can't deny
What I feel insideI can't slip away when I see your face
I lose my confusion
Your love is the place where I come from
When I'm on my own I'm lost in space
My freedoms a delusion
Your love is the place where I come fromI can't slip away when I see your face
I lose my confusion
Your love is the place where I come from
When I'm on my own I'm lost in space
My freedoms a delusion
Your love is the place where I come from
