

# He Needs Me

Frances Wayne

He needs me  
He doesn't know it but he needs me  
And so no matter where he goes  
Though he doesn't care  
He knows I'm here He needs me  
I ought to leave him but he needs me  
I guess it isn't very bright  
Just to tag along  
But right or wrong, I'm here, I'm his And I'll be a friend or a lover  
Because my one ambition is  
To wake him and make him discover He needs me  
I've got to follow where he leads me  
Or else he'll never know that I need him  
Just as he needs me And I'll be a friend or a lover  
Because my one ambition is  
To wake him and make him discover He needs me  
I've got to follow where he leads me  
Or else he'll never know that I need him  
Just as he needs me
