Break My Heart

Atb

I can check out any time I like
Nothing hurts like brave tomorrows
At the end of your line
Close the door and hide the phone
Nip the bud and still the branches
That you're leaving behindI should have told you
That's not the way
That's no way to break my heart
I should have told you
That's not the way
That's not the way
That's no way to break my heartI could tell by the way you walked
I could tell by the way you gave me
What I knew wasn't mine
Doesn't matter if it's all night long
Doesn't matter if you're gone by Monday
Just as long as you're rightI should have told you
That's not the way
That's no way to break my heart
I should have told you
That's not the way
That's not the way
That's no way to break my heartI don't know what side you??re on
I don't know what makes you happy
Except watching me cry
Like a ghost in an old hotel
Hanging onto bits of nothing
I'm leaving you now
