

Murdered Love

P.O.D.

The death sentence, capital punishment
Give to blood-shed, convict the innocent
Eradicate the witness Lynch the first, slaughter the last Exterminate the absolute
Stain the just in the blood bath
Waste the pure, butcher the divine
Annihilate the sunrise And he was numbered with the transgressors
The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love Eliminate the infinite
Snuff the light and finish the truth
Kill the immaculate
Condemn beautiful virtue
Assassination of individual redemption
Obliteration of this undeniable one And he was numbered with the transgressors
The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love Remember me when you step into your glory
Don't forget me when you step into your glory
Remember me when you step into your glory
Don't forget me when you step into your glory Your glory!
The day that they murdered love The day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love The day that they murdered
The day that they murdered

The day that they murdered
The day that they murdered loveThe day that they murdered
The day that they murdered
The day that they murdered
The day that they murdered love
