

# Love You When I'm Drunk [Acoustic]

Mika

I had a dream last night I slept with someone else  
Doesn't mean that I've cheated on you  
It was amazing and I couldn't stop myself  
Could it be that I really want to  
What if the things we feel come on then what we do  
Guess what lover, I'm leaving  
I don't wanna be that guy, look you in the face and lie  
But someone has to say it first  
Even if the words may hurt  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk  
Don't get me wrong last night I didn't changed my mind  
It was the drink it was leading me by  
And when I kissed you it was such a big mistake  
A couple drinks, that's a chance I'll not take  
And if I can't control all of the things I do  
I guess I better be leaving  
I don't wanna be that guy, look you in the face and lie  
But someone has to say it first  
Even if the words may hurt  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk  
Darling I'm a little bit drunk but I know what I've got to do  
Cause when I'll get a little more sober, I know I'll be over you  
And I may be a little bit drunk but I know what I've got to do  
Cause when I'll get a little more sober, I know I'll be over you  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk  
I only love you, I only love you, I only love you  
Only love you, only love you when I'm drunk.
