Everytime You Go

KSM

A minute later the sky looks grayer
It's the way I miss you every time you go
Why can't you just see, yeah it isn't easy
What you put my heart through every time you go?I'm not myself without you
Nothing feels the sameSo don't say you're leaving and don't say goodbye
It breaks my heart but I never let it show every time you goIt's a lonely picture when all I do is miss you
My smile is fading every time you go
'Cause you're the one who understands me
And you're the one that makes me happy
It's sad, it's sad I know is every time you goI'm not myself without you
Not even for one daySo don't say you're leaving and don't say goodbye
I cry inside but I never let it show every time you goAll I wanna know is when will I see you again?
Please don't make me wait too longDon't say you're leaving and don't say goodbye
It's hard to breathe but I never let it show every time you goNow don't say you're leaving and don't make me cry
I fall apart but you don't even know every time you go
I really miss you every time you go
