

Rock Hard

[Suzi Quatro](#)

She spent the whole of last summer
Lookin' out for a six foot two.
She gave them all a good chance She was cool so she told 'em what to do.
What she needs is a real special guy
And if you knew her you would never wonder why.
When you see her now you'll see her with a six foot two. She never takes a chance She doesn't need romance.
Her love is - rock hard -
She never takes a chance.
She never dates to dance Her love is - rock hard - She goes to parties
With a boyfriend hangin' on her arm No-one give her any lip No-one does her any harm All the other girls
hangin' in the hall.
She got the boys all wishin' they could call She starts makin' out and someone's ringin' on the fire alarm. She
never takes a chance
