

Slow Down

Ben Jelen

All of my answers and all my reasons
And all my excuses they never asked
'Cause all of my answers they keep on changing
I spend my life waiting for the next No, I just keep on moving
No, I just keep on pushing forward
No, I forgot what I was looking for, no And all their illusions, I won't believe them
I'll always believe what I can't forget
'Cause all of their reasons, they keep on changing
I spend my life waiting for the next No, I just keep on moving
No, I just keep on pushing forward
No, I forgot what I was looking for
