My Beautiful Friend

The Charlatans

My beautiful friend
I will pay attention
Dont say this is the end
I find it hard to describe you
To point and discover you
Could I tell you once again
O my beautiful friendLet me sleep and I will feed you when youre hungry
4 ever live inside of me
Thru the holes in the pockets of my clothes
High as, as high as an angel
I will stand there beside you
Love is all we need
My beautiful friend
My beautiful friendMy beautiful friend, I swear I adore you
Aint no woman deep enough
I dont know how we made it this far dear
Without losing at least an ear
I could leave us, I could leave us a painting
Our lives are-a-changing
I couldnt and I wouldnt want to change you
Dont you know it I can save you
I will do all of this on my very own
My beautiful friend
My beautiful friend(Can I ask you) do you ever get this feeling
That we've got to carry on
Do you ever get this feeling
When its hard to carry on
Do you ever get this feeling
That we've got to carry on
