Turn The Lights On

Natalie Bassingthwaighte

This is it, this is it
You show me who your loyalty is sleeping with, didn't you?
Let it die
This time I'm gonna let it die
I'm left here with the pieces of another try
Nothing newAnd I have never felt as humiliated as I do right now
And I don't know how I'm gonna get out of this with my head held high
But I'm gonna tryChorus:
So turn the lights on and leave
Remember how I loved you when you ached and you need
Remember how I offered to be there when you turned
Remember when you burned
What you had, what you had
And all that ever starts gotta stop
And all I know for certain is my heart's had enough
And you was never worth it
I'm taking it all back
Settling my score
Covering all traces
Walking with you no more, no moreI don't need
No, seriously, I don't need
For you to give your reasons up for leaving me
Keep your lies
And you can say you're wasting your breath
But baby you can say
That this is my decision
But you chose your way
And so will IAnd I have never felt more ashamed of you than I do right now(Repeat Chorus)Walking with you no moreAnd I have never felt more ashamed of you than I do right now, no
And I don't know how I'm gonna get out of this with my head held high
But I'm gonna try(Repeat Chorus)Walking with you no more
