

Take You Home

The Whiskey Saints

Did what I could in Hollywood
But talent only goes so far
Got in my car and got drunk at a bar
At least I know I do that well But if I take you home tonight
Will you still be by my side?
In the morning when I wake up
Don't wanna have to make up my mind
Will you still be by my side? Won't rest my head until it's after 3AM
And even then I don't sleep well
I stayed up late, had to be at work by eight
My boss is gonna give me hell But if I take you home tonight
Will you still be by my side?
In the morning when I wake up
Don't wanna have to make up my mind
Will you still be by my side? Another beer before it's time for me to go
A shot of whiskey and just say you'll hold me close
'Cause when the lights come on it's you I love the most But if I take you home tonight
Will you still be by my side?
In the morning when I wake up
Don't wanna have to make up my mind
Will you still be by my side?
