I drifted around knowing and i drifted around knowing (repeat)

Got the nerve, got the feel that we're going to die

ever learn ever feel that you're going to die

ever learn, got to feel that we're going to die

We're all going to die

we're all going to die

we're all going to die

we're all going to die

Got to learn how to feel when you're going to die

got's to learn ever feel how you're going to...

got's to learn how to feel when you're going to die

got's to learn how to feel...

I drifted around knowing

and i drifted around...

We're all going to die

we're all going to die

we're all going to die

we're all going to die
